

GLOBAL INVITATION

Dear excellency Gregory Thuan,

It is a distinct honor for all of us at the United Indigenous Peoples and Tribes of the World to send you greetings as we help to build this year's World Energy Forum. We are pleased to inform you that the World Energy Forum 2016 will be held at the United Nations Headquarters in New York City and the New York Hilton Midtown on October 19-22 under the thematic banner of "2030 Development Agenda and Energy for All."

We would like to invite you to participate as a panelist in this high level gathering of the world's thought leaders to discuss humanity's sustainable future. At the dawn of the New Era for People, Planet, Peace, Prosperity and Partnerships - 5 Ps of Sustainable Development - the World Energy Forum 2016 will convene in New York City the leaders of governments, industry, academic and financial institutions as well as intergovernmental organizations and civil society to chart the next direction of the world. This conversation will follow on to the unfinished business of the implementation of the Millennium Development Goals prescribed by the world's leaders.

As the world's premier platform for energy leadership, the World Energy Forum takes to heart the urgent need of insuring energy for the economic, social and human development of all nations and peoples. It also addresses energy's negative and positive impact on the natural environment and all of humanity across the globe. The World Energy Forum 2016 will facilitate innovations, collaborations, opportunities, and solutions to secure energy for all and to achieve the goals outlined in the 2030 Development Agenda.

We welcome you to join with us in this significant global undertaking

H.E. Ambassador Wômpimeeqûin Wampatuck
Office of the High Commissioner for the United Indigenous Peoples and Tribes of the World
